

BODA RITHWIK

Full Stack Developer | Cloud Native Engineer | B.Tech CSIT + BBA (Dual Degree)

+91 6300933175 | bodarithwik416@gmail.com | Anakapalle, AP | LinkedIn | GitHub

ABOUT

B.Tech CSIT (Computer Science & Information Technology) + BBA dual-degree undergraduate at KL University (CGPA: 8.51) with hands-on experience in full stack development, cloud-native architecture, and DevOps. Skilled in React.js, Node.js, Spring Boot, AWS, Docker, and Kubernetes. Holds Microsoft Azure (AZ-900) and Oracle Cloud DevOps certifications. Seeking a fresher role in software development or cloud engineering.

EDUCATION

B.Tech – Computer Science & Information Technology (CSIT) KL University, Vijayawada CGPA: 8.51 / 10.0	[June 2023 – June 2027]
BBA – Bachelor of Business Administration (Dual Degree) KL University, Vijayawada CGPA: 8.68 / 10.0	[June 2024 – June 2027]
Intermediate (MPC) – Class XII Narayana Junior College	[2021 – 2023]
Secondary School Certificate – Class X Bhashyam High School	[2019 – 2021]

TECHNICAL SKILLS

Languages: C, Java
Web Development: HTML5, CSS3, React.js, Node.js, Spring Boot
Cloud & DevOps: AWS, Oracle Cloud (OCI), Kubernetes, Docker, CI/CD Pipelines, GitHub Actions
Databases: MySQL, MongoDB
Core Concepts: DSA, REST APIs, Microservices, Authentication, Full Stack Development

PROJECTS

Cloud-Native Student Management System <i>Spring Boot, AWS, Docker, Kubernetes, GitHub Actions</i> - Developed a cloud-native platform using Kubernetes and microservices architecture on AWS, ensuring high scalability and fault tolerance. - Automated deployments via GitHub Actions CI/CD pipelines with Dockerised containers, reducing manual deployment overhead significantly.	[In Progress]
Car Rental System – Full Stack Application <i>Node.js, HTML5, CSS3, JavaScript</i> - Built a full-stack car rental app with role-based authentication, admin/customer roles, and real-time availability tracking across devices. - Designed responsive UI with HTML/CSS/JS and RESTful backend services in Node.js for seamless booking management.	[2025]
ERP Software Model <i>ERP Management System</i> - Building an ERP-based academic management system to streamline university workflows for scheduling, records, and resource allocation. - Designing role-based access control with secure authentication for staff, faculty, and administrators ensuring structured data management across departments.	[In Progress]

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900) – Microsoft (2025)
- Oracle Cloud Infrastructure 2025 Certified DevOps Professional – Oracle (2025)
- Linguaskill English Certification – Cambridge University (2024)
